### 13. Risk management

At our College, we are committed to proactively and systematically identifying and assessing risks to student safety across our whole College environment and reducing or eliminating (where possible) all potential sources of harm. We document, implement, monitor and annually review our risks and risk management strategies for child safety and wellbeing, evaluate the effectiveness of the implementation of our risk controls and ensure that the strategies change as needed and as new risks arise.

The Principal is responsible for ensuring a child safety risk register is developed, maintained and regularly reviewed. This risk register takes into account the local risks and hazards identified in school environments.

At St Mary's College we are unwavering in our commitment to ensuring the safety and wellbeing of every child in our care. In line with Ministerial Order No. 1359 and the National Child Safe Standards, we will establish a clear and structured approach to prevent, identify and manage risks related to child safety and wellbeing across all school environments and activities.

To lead this effort, St Mary's College will establish a Child Safety and Wellbeing Team, which will include members of the College leadership team, wellbeing staff, teaching staff, and where appropriate, representation from parents and community stakeholders. This team will be responsible for:

- Conducting regular risk assessments across all areas of the school environment, including physical spaces, digital platforms, and offsite activities such as camps and excursions.
- Identifying specific risks associated with activities delivered by external contractors, volunteers, and third-party providers, ensuring these individuals and organisations are appropriately screened, inducted, and supervised.
- Implementing clear strategies and protocols to mitigate identified risks, including staff training, student education programs, and appropriate reporting.
- Regularly reviewing and updating our Child Safety and Wellbeing Policy and related procedures, including responding to any incidents or complaints, changes in the school context, or updated legal or regulatory guidance.

Strategies St Mary's College uses to regularly and routinely monitor the online environment:

- The College employs centrally managed web filtering and cybersecurity tools (e.g., via MACS ICT infrastructure) to restrict access to inappropriate, harmful, or unsafe online content on all school-managed devices and networks.
- These systems enable real-time monitoring and alerts, allowing the ICT team and College leaders to respond promptly to concerning online behaviour or access attempts.
- Staff are trained to actively supervise student use of technology during class time and to enforce responsible digital behaviour aligned with our Acceptable Use Agreements.
- Students are regularly reminded of their responsibilities when using College devices and platforms, both at school and at home.
- All students and parents/carers must agree to and sign a Digital Technology and Acceptable Use Agreement annually.
- The College delivers explicit digital citizenship education across year levels, covering safe online behaviour, respectful communication, cyberbullying prevention, digital footprint awareness, and strategies for help-seeking.
- eSafety Commission online incursions
- Communication and collaboration between staff and students is conducted through school-managed platforms (e.g. Google Classroom, SIMON, PAM)
- Non-approved apps and platforms are restricted or blocked from use on College devices.
- The College has clear processes for students, staff, and parents to report online safety concerns, including bullying, harassment, or exposure to harmful content.
- Incidents are recorded, investigated, and responded to by the relevant wellbeing and leadership staff, with appropriate supports and follow-up provided.

Strategies St Mary's College uses to consider the risks posed to children and young people arising from third party providers engaged by the College:

- Verification of Working with Children Clearances (WWCC) or VIT registration for all individuals who engage with students or work in student-accessible areas.
- Collection of risk assessments and child safety policies from external providers, particularly for regular service providers or offsite activities (e.g., camp operators).
- Members of the Child Safety and Wellbeing Team review arrangements with external providers annually or when services change.
- All visitors must report to reception upon arrival, where they sign in using our electronic visitor management system.
- Any incidents, complaints, or concerns involving third parties are documented and reviewed in accordance with our Child Safety Incident Reporting and Response procedures.
- Visitors are required to present a valid WWCC card if their visit involves working with or near students, and this is checked and recorded.
- All visitors are issued with a clearly identifiable visitor badge, which must be worn at all times while on campus.
- Visitors are only permitted to access designated areas and must be accompanied by or under the supervision of a staff member when near student areas, unless otherwise authorised.

- Any incidents, complaints, or concerns involving third parties are documented and reviewed in accordance with our Child Safety Incident Reporting and Response procedures.

## 14. Communication

The Principal is to make the policy and procedures for child safety are publicly available. Information about child safety is communicated in age and culturally appropriate ages to best assist our school community. The Principal notifies the school community when this policy and the school's processes and strategies are updated through the school's communication channels.
